

# Performance optimisation / Options

## Electronic performance optimisation and Sportec Performance Modul

<b>Engine control unit optimisation</b>		
<b>Stage 1 VW – Audi - Seat – Skoda – others</b>		
<b>Software up to 2000 ccm</b>	<b>excl. VAT: CHF 850.-</b>	<b>incl. VAT: CHF 915.45.-</b>
<b>Software from 2001 ccm to 3000 ccm</b>	<b>excl. VAT: CHF 950.-</b>	<b>incl. VAT: CHF 1023.15.-</b>
<b>Software from 3001 ccm</b>	<b>excl. VAT: CHF 1250.-</b>	<b>incl. VAT: CHF 1346.25.-</b>
<b>Montage Steuergerät/Fahrzeug</b>	<b>excl. Mwst: CHF 261.-</b>	<b>incl. VAT: CHF 281.10.-</b>
<i>In case of a removal and reinstallation of the control unit to the vehicle, the control unit/vehicle assembly will be charged. Depending on the vehicle this option is not applicable in each case. Depends on the control device type.</i>		
The software contains a modified program including the installation in the control unit. The prices are classified according to engine displacement classes. For more detailed information, please refer to the sales documents or the internet. Some vehicle types require extra material in order to reach the specified performance data. In order to program the correct data, we need your complete vehicle information. There might be certain vehicle exceptions which are excluded from this offer. Prices are exclusive of shipping.		

<b>Engine control unit optimisation by Sportec Performance Modul</b>		
<b>Stage 1 VW – Audi - Seat – Skoda – others</b>		
<b>SPM up to 2000 ccm</b>	<b>excl. VAT: CHF 1160.65.-</b>	<b>incl. VAT: CHF 1250.-</b>
<b>SPM from 2001 ccm to 3000 ccm</b>	<b>excl. VAT: CHF 1299.90.-</b>	<b>incl. VAT: CHF 1400.-</b>
<b>SPM from 3001 ccm</b>	<b>excl. VAT: CHF 1578.45.-</b>	<b>incl. VAT: CHF 1700.-</b>
The software contains a modified program including the installation in the modul. The prices are classified according to engine displacement classes. For more detailed information, please refer to the sales documents or the internet. Some vehicle types require extra material in order to reach the specified performance data. In order to program the correct data, we need your complete vehicle information. There might be certain vehicle exceptions which are excluded from this offer. Prices are exclusive of shipping.		

<b>Power measurements on our test bench</b>		
<b>Input/output performance measurement</b>	<b>excl. VAT: CHF 330.-</b>	<b>incl. VAT: CHF 355.40.-</b>
The input/output performance measurement is for your own and our certainty.		

<b>Swiss - Homologation</b>		
<b>Swiss Homologation Porsche</b>	<b>excl. VAT: CHF 742.80.-</b>	<b>incl. VAT: CHF 800.-</b>
<b>Swiss Homologation VAG</b>	<b>excl. VAT: CHF 278.55.-</b>	<b>incl. VAT: CHF 300.-</b>
<b>Swiss Homologation VAG (add. module)</b>	<b>excl. VAT: CHF 464.25.-</b>	<b>incl. VAT: CHF 500.-</b>
According to the respective type of vehicle, a Swiss homologation is available. For more precise information please refer to the sales documents or the Internet. Some vehicles may be excluded. TÜV certificate on request.		

<b>Sportec warranty</b>		
<b>Warranty</b>	<b>excl. VAT: CHF 500.-</b>	<b>incl. VAT: CHF 538.50.-</b>
Warranty according to the General Terms and Conditions of Sportec AG (cf. guarantee). We can only offer you full product warranty if the vehicle has been formerly inspected by us (input/output performance measurement) including an expert's report, provided that such is available for your vehicle type. In addition, you will receive a free one-time support for a manufacturer's update of the control unit.		

<b>Manufacturer's updates / OEM condition</b>		
<b>Manufacturer's updates</b>	<b>excl. VAT: CHF 125.35.-</b>	<b>incl. VAT: CHF 135.-</b>
For manufacturer's updates, it is necessary to reset the vehicle software to the original standard settings. <i>In case of a removal and reinstallation of the control unit to the vehicle, the control unit/vehicle assembly will be charged. (see engine control unit optimisation) Depending on the vehicle this option is not applicable in each case. Depends on the control device type.</i>		

<b>Software reprogramming after deletion / Updates</b>		
<b>EO reprogramming after deletion</b>	<b>excl. VAT: CHF 150.40.-</b>	<b>incl. VAT: CHF 162.-</b>
Should the original Sportec software have been deleted (for example, due to the installation of a manufacturer's update), the Sportec software may be reinstalled. After the update has been carried out, our tuning data will be recalculated and installed. The optional Sportec warranty includes a one-time recalculation and installation of the tuning data. <i>In case of a removal and reinstallation of the control unit to the vehicle, the control unit/vehicle assembly will be charged. (see engine control unit optimisation) Depending on the vehicle this option is not applicable in each case. Depends on the control device type.</i>
